

## **Addendum to Behaviour Management Policy September 2020**

During the Covid-19 Epidemic the following procedures will be in place regarding Behaviour Management in Chalton Lower School.

We will still maintain the same expectations of the children in regards to behaviour and maintaining the high standards that we expect.

### **In September**

The rules will need to be explained to the children again regarding our expectations around the bubbles.

- Children will need to keep to their designated areas.
- Children should keep in the designated routes down to their play area.
- Play equipment should be returned to the other bubbles if it comes over into the wrong area. This should be done without touching it with their hands.
- Children should try to keep socially distant from each other by not hugging, or kissing and trying to keep contact to a minimum.
- Children will wash their hands before and after play, before and after PE
- Instances of poor behaviour should be recorded in the Behaviour Log
- Running before the red line is not acceptable
- Children should walk in the school
- An 'inside voice' should be used when in the buildings
- Children should not be asked to enter another bubble for whatever reason.
- Should an adult need to be summoned, the children should take the card from the member of staff and hold it up at another classroom door. They may speak to another child or adult to attract their attention.

### **Nursery/Diamonds Classroom**

Should there be an instance of inappropriate behaviour staff will:

- Give a verbal warning and their behaviour will be discussed and explained why it is wrong
- After a second warning they will have time out in the classroom
- If behaviour does not improve then they could have time out on the playground
- Parents may be informed if their behaviour does not improve

### **Year 1 / 2 and 3/4**

- Give a verbal warning and told about the expectations of missing play time should the behaviour continue
- Should they continue with their behaviour then they will automatically miss the remainder of play time.
- Parents may be informed if their behaviour does not improve

### **Expectations whilst working**

- We expect our children to work hard at all their tasks.
- Staff should indicate to the children the expectations on the amount or quality of work that should be completed. If this is not achieved, then the child should complete their work during playtime or lunch time for 15 minutes. This they will do in their classroom.

### **Playtime**

- Discuss behaviour with children asking for both sides
- Verbal warning
- Time out if it continues
- Should the misdemeanour be physical, hitting or kicking, then staff should consider taking their playtime away immediately without a warning. This will be left to the discretion of staff as it may be part of an ongoing situation.

### **Parents**

- *Should behaviour continue, then parents will be informed either by telephone or in person*

LN 19.05.20

*Updated for Nursery/Reception Class
