General Statement of Policy

The Governors and Headteacher of Chalton Lower School are committed to ensuring a safe and healthy environment and for providing safe equipment and procedures for all staff, pupils and visitors involved in school activities. They also recognise their responsibility to consider the health and safety of contractors and any other person whose health and safety may be affected by school activities.

The effective management of health and safety ranks equally with any other managerial or supervisory responsibility. There is also a legal and moral responsibility on all employees to safeguard their own health and safety and to co-operate with their employer by following established procedures and bringing to the attention of school management any health and safety problems of which they are aware.

It is the intention of the Governors and the Headteacher that the established policies and procedures issued by the Local Authority shall be followed and developed locally to meet the needs of the school, as set down in this policy statement. The aim is to ensure that health and safety becomes an integral part of school activities.

The Governors wish to encourage the recognised Trade Unions to exercise their legal rights to appoint safety representatives at the school, as provided for in the Health and Safety at Work etc. Act 1974. The Governors also wish to work in a constructive and co-operative way with such safety representatives in order to promote high standards of health and safety.

This policy will be reviewed annually by the School Improvement Committee. The reviewed policy will then be ratified at the next full Governing Body Meeting.
